HAZEL GREEN, KY.:

FRIDAY, : August 26, 1887.

As there has been some talk of "she-nanigan" in the calling of the primary election to be held at Campton on tomorrow to nominate a Democratic candidate for Sheriff of Wolfe county, we have taken some pains to ascertain the facts in the case. With that end in view, we called upon A. PORTER LACY, Esq., of this town, who is a member of the Democratic County Committee, and from him we learn that the call was made in due form by the chairman, and that it was in no wise in the interest of any particular candidate. Mr. LACY says he had heard a great many persons express themselves as against precinct primaries on account of the prevalence of party feuds and the presence of liquor, a combination that generally promotes strife, and that he was himself in favor of having a mass meeting to determine the choice of a candidate. He had never talked with any member of the committee until it met at Campton, and he then advanced and advocated a mass meeting, but another member of the committee, THOS. C. JOHNSON, Esq., favored a county primary to be held at Campton, August 27, and as that plan met with the approval of a majority of the committee Mr. LACY acquiesced. He is of opinion that it is the fairest way open to the aspirants for the office of Sheriff, and the best possible means of avoiding trouble.

If any of our readers doubt that Eastern Kentucky will some day be densely populated, we ask them to read the following statistics, which we extract from a Washington dispatch to the Cincinnati Enquirer. It looks like there will soon be foreigners enough to cover the United States several deep. The report of the Chief of Bureau of Statistics for the month ending July 31st presents some interesting figures on immigration. The number of immigrants arriving in this country in July was 39,080, of whom 29,657 landed in New York. The number for the same month last year was 31,348, a difference of 8,000. The immigration for the seven months ending on the 31st of July, 1886, was 221,313. Thus our increase in population from immigration in favor of the seven months of this year was 104,218.

Germany sends 7,998 people a month; England and Wales 7,356; Ireland 4,661. Then comes Sweden and Norway with 5,819 industrious and thrifty candidates for citizenship. Austria-Hungary (including Bohemians) gives us 3,053.

Russia sends 2,875 people, and Italy sends, every thirty days, 2,334 organ grinders and banana peddlers.

We learn from a gentleman just from Breathitt county that the people there are selling out the mineral rights to all their lands, and that they are being bought up by a syndicate for speculation when the railroad enters that county. That the selling of these mineral rights will cause a temporary prosperity in that section is patent, but will that temporary prosperity redounded to the good of the county in the long run? The right to mine minerals does not interfere with farming operations, but where land is opened up for mining it seems to us it would be of little value for agricultural purposes. However, every one must paddle his own canoe, and if he sink from selling out his rights, it is none of our fault.

Hon. TOM STUART, of Winchester, writing to subscribe to THE HERALD, says: "Please place my name on your subscription list for your newsy, wide-awake little paper." With the request he sends us a dollar, and adds: "Come down and see the liveliest town in the State, the future 'Gate way City' to the great mineral belt of Eastern Kentucky."

Pres. Taulbee, the brilliant young Congressman from the Tenth district of this State, will not be a candidate for re-election, so some of his intimate friends say, although the nomination would doubtless be given him if he desires it. Taulbee appears in the pulpit occasionally, and it is for the ministry that he is going to give up politics. His splendid voice and fine flow of language will make him a popular preacher. His ministerial aspirations are well known in the East, and recently received an offer to take the pulpit of a church in Philadelphia at a salary as large as that which he receives in Congress.—Courier-Journal.

## 'Throw Physic TO THE Dogs.'

Said a great man, but why afflict the dog, if he don't need it? Yet many persons read an almanac where various diseases are described and symptoms given that will almost convince a WELL man that he is AWFULLY "out of whack," and they are ready to buy "Something to Take," regardless of real NEED. A diseased liver is the seat of Nine-Tenths of the diseases of the flesh. That tired, nervous, restless feeling that goes to bed with you, and gets up as promptly as the rooster crowing, and sticks closer than a brother, tells you that you NEED something to overcome it. A nasty aloe coated pill makes you gag to THINK of it. You can't bear the THOUGHT of it! Now, listen! We haven't any great discovery by Indians, but we have a SMALL sugar-coated Pellet that the most delicate may take, a combination of VEGETABLE remedies—the work of one of the best educated Physicians in this country—a formula that we will give any Physician desiring it. If you NEED a LIVER Pill try these.
